EDUCATION

University of New South Wales (UNSW)

Feb 2018 – Dec 2022

Bachelor of Commerce (Finance)[Distinction] & Bachelor of Engineering (Mechanical)(Honours)

Notable Coursework (High Distinction): Engineering Design & Innovation, Computing for Engineers (Python), Digital Supply Chain Honours Thesis, Discrete Mathematics, Enterprise Architecture for Scalable Cloud Solutions.

PROFESSIONAL EXPERIENCE

Plerion: Lead Solutions Architect

Mar 2026 – Current

- Lead Solutions Architect for Cloud Security & AI Startup across ANZ, disrupting the cyber space by simplifying and automating fixes with Agents and LLMs to reach a 2 million USD annual target for an upcoming Series A.

Amazon Web Services: Enterprise Solutions Architect

Dec 2021 – Mar 2026

- Solutions Architect for Enterprise and mid-market segment for Software (SaaS) Businesses across ANZ, collaborating with 5 Account Execs to deliver 3.37 million USD annual influenced revenue for cloud adoption
- Co-ordinating sales and GTM teams to deliver scale campaigns to cumulative 5000+ tech audiences of 1:Many events and presenting at Security Solutions Focused Immersion Days, AWS Sydney Summit and delivered a talk at AWS Re:Inforce 2025 to an audience of 60+ and achieved CSAT of 4.88
- Delivering multiple Generative AI & ML Proof of Concepts to Customers in engagements and workshops.
- Delivered multiple proof of concepts to customers and guided the process of using the AWS SDK and their respective API libraries to remove the guesswork out of implementation.
- Developed strong fundamental skills in architecture best practices, engaging in guidance for AI/ML infrastructure solutions for application development with security (Well-Architected, IAM, Network Security, SIEM)
- Lead Diversity, Equity & Inclusion program named “AWS She Builds” expansion across APAC and EMEA

Serco Defence Australia: Asset Management Engineer

Feb 2019 – Sep 2021

- Researched and analyzed asset & technology challenges faced by Navy Maritime Clients (HMAS Kuttubul) for assets valued over \$50,000, leveraging Six Sigma thinking to streamline reporting processes by 35%
- Co-ordinated with key stakeholders and engineers to remediate a discrepancy of \$200K on SpecTec AMOS.

PROJECTS

Generative AI Security Immersion Day: Workshop Engineer

Jun 2024 – Oct 2025

- Developed a full-stack AI Guardrails application with AWS Amplify & S3 Static Assets frontend, and API Gateway, Lambda (serverless) and Bedrock backend.
- Built application function prompts to allow users to test guardrails and content filters against harmful user inputs and model responses that violate usage policies.

VMWare Migration to AWS Cloud: Solutions Architect

Jan 2024 – Dec 2024

- Collaborated with a Systems Integrator Partner from the APN to assist a customer in shifting their infrastructure from on-premises to the AWS Cloud following on-prem price hikes from Broadcom's acquisition of VMWare.
- Delivered a migrations best-practice workshop which resulted in \$360K USD ARR on AWS.

Global File Replication (S3 CRR & FSx DRA) Whitepaper: Solutions Architect

Jan 2024 – Dec 2024

- Designed and architected a future state architecture for a customer to solve the pain point of global latency and file synchronization across multiple regions.
- Developed a reference whitepaper that leverages S3 Cross-Region Replication to keep files eventually in-sync. This led to the successful customer deployment of a \$400K+ USD Opportunity.

LEADERSHIP & EXTRA CURRICULARS

AWS Security Technical Field Community: Area of Depth Member

Jan 2023 – Current

- Delivered Generative AI Security Workshops and Mavens for both customers and internal teams to upskill the field on topics such as AI Guardrails, Prompt Engineering, OWASP Top 10 for LLMs and least privileged access for certain roles' access to sensitive information disclosure
- Published YT Video: https://www.youtube.com/watch?v=hJy3Pxb8WRg&ab_channel=AmazonWebServices

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, Node.js, TypeScript

Developer Tools: Linux/Unix, GitHub, GitLab, Jira, AWS Services, AWS SDK

Notable Certifications: AWS Certified Solutions Architect Professional, AWS Security Specialty, AWS Certified Machine Learning Specialty, AWS Certified Data Engineer Associate, AWS Golden Jacket Holder
